Westel House demolition for iconic new development

July 2011

Developers Frogmore has been granted planning permission by Ealing Council to demolish the outdated Westel House building in Ealing and replace it with a brand new hotel and residential development of iconic design. The striking architecture of the scheme will feature three buildings, the tallest of which will be up to 21 storeys with a viewing platform where residents can overlook the magnificent views of Ealing and beyond to central London. The development at 58 Uxbridge Road will feature 131 residential units, a nine-storey four-star hotel, a children's play area, car park facilities and a landscaped boulevard frontage.
